PEACE SUMMARY

Bu Associated Press Leased Wire Declarations that Germany will not acquiesce in the demands made upon her by the peace treaty continue to come from high sources in the German government. President Ebert is quoted 25 today in Berlin dispatches as having 32 reiterated at a Sunday demonstration 1.65 in Berlin that the peace terms never 11 would be signed by Germany.

Meanwhile, the uncertainty that had prevailed over the status of Count Von Brookdorff-Rantzau, head of the German peace mission, has been solved. The count, who left Paris for Spa to meet government representatives from not return because of differences in the delegation over Germany's peace policy that government control would end as men who saw any service at all in the is back in Versailles. He returned ing against the railing of the bridge in dessert, too tempting to refuse. And there this morning, as likewise did Herr Landsberg and Herr Giesberts, two other members of the mission, who healthful and enticing, yet it does not went to Berlin last week for consultations. Their return makes the personnel of the German delegation at Ver sailles again complete.

Dispatches from Paris indicate that no further effort will be made by the llies to provide food for the Russian people, as a result of the refusal of M Pchitcherin, the bolshevik foreign minster of Russia, to meet the allied con ditions which stipuated that the bolheviki would cease making war or countries adjacent to Russia.

Premier Paderewski of Poland is ex pected to arrive in Paris Thursday. The crises which has developed in his coun try, it is believed in peace conferences circles, can be adjusted so that M. Padrewski will retain office as premier. A dispatch from Paris says that he may sk that Poland be released from promses made relative to hostilities with the Ukraine. A truce was recently arrang ed between Poland and the Ukraine out recent reports have declared that Simon Petlura, the Ukrainian peasan ader, has gone over to the bolsheviki.

Australian Pearls.

Pearls that come from the coast of Australia are of many shapes and colors. Those under ten grains are sold by the ounce, above that by the grain. Color has a deal to do with the value. The white pearls go mostly to Europe and the yellow ones to India. In Australia an ounce of good white pearls will fetch up to £100, but sometimes realize only a fifth of that amount. The yellow pearls may be rated on an average of about half the value of the white ones.

Testing Pleurisy With Coins.

A novel method of diagnosing pleurisy is described by P. Lereboullet in the Paris Medical. The examiner applies his ear to the patient's chest, closing his other ear, while coins are clinked at the patient's back. The sound of the coins coming through a healthy, normally-aerated lung seems distant and dull, while through an afneous tissue, a clear, silvery, metallic

Real-Fruit Desserts 121/2c Per Dinner

We Pay 10c Each

Note that Jiffy-Jell brings you a real-fruit dessert. All the fruit flavors are fruit-juice essences condensed. They come sealed in glass - a bottle in each package - so they keep their fruit-time freshness.

Mark how Jiffy-Jell differs from old-style gelatine desserts. Here you have truefruit dainties, rich in condensed fruit juices. You get all the delights, all the healthfulness of fruit.

You simply add boiling water-no sugar, no acidity, no color. Then add the fruit-juice flavor from the vial. One package of Jiffy-Jell serves six people in mold form, or twelve if you whip the jell-all for 121/2 cents.

For Salads use limefruit Jiffy-Jell. It makes a tart, green salad jell. Serve with the salad or mix the salad in before cooling

TYPHOID, THE FILTH DISEASE.

"Typhoid fever is a preventable disease. For every death from typhoid some one ought to be held criminally responsible." This statement, made by former Surgeon General George M. Sternberg of the United States army, is one of the slogans used in Health Promotion week in Illinois.

For some reason, which is difficult to explain, a great many people are exceedingly reluctant to admit the existence of tuberculosis or insanity in their family history, and yet, so far as the individual is concerned, these diseases are eminently respectable. On the other hand, there seems to be no definite sense of shame in regard to typhoid fever, which is recognized by scientists and physicians the world over as a filth disease-filth taken into one's system, or that has been permitted to work its

Typhoid fever can not exist unless some one has been careless or unless in some way the material from the intestines of a typhoid patient or a typhoid carrier gains access to the digestive tract of an individual. As a rule, infection is carried by polluted water or by contaminated food, and in the spread of this contamination the ever-filthy housefly is an important factor. Any way that you look at it, typhoid fever is a auseous and disgusting disease.

Typhoid fever may be acquired either by drinking polluted water, by drinking have been washed in it.

During the Spanish-American war, was found that, in spite of the complete that infection was brought about through the contamination of food by the housefly, which came to the kitchens and mess tents from the unprotected and unscreened latrines.

Former Government Inspector is Held for Big Bond Theft

By Associated Press Leased Wire Chicago, May 19 .- With the arrest of Thomas Westover, formerly an inspector at a government explosive plant in West Virginia, federal agents today hoped to solve the mystery of the theft last January of \$250,000 in liberty bonds from the Studebaker corporation of South Bend, Ind.

Julius Robertson, a secret service operative, claims to have heard Westover and two other men discussing the theft of the bonds while on a train enroute from South Bend to Chicago a few days ago. He lost all trace of the men after they left the train here until Saturday night when he found Westover in a downtown hotel.

According to Robertson, one of the men said that the proposition of returnnig the bonds had been "put up to" E. R. Erskine, president of the Studebaker corporation and that he declined to pay reward for their return. Westover will be held, pending word rom the corporation.

He thought that is often the final straw. the man was simply drunk, since he made no attempt to stop the car or call for aid; and when a little later Mr. Harms saw another man lying in the grass beside the road his belief was simply that there had been an orgy of some kind at one of the foreigner's shacks near the cement factory and that the recumbent man was sleeping off the effects of a drunk.

"Two Men Killed." About forty rods further on a coatless Mexican rushed out into the road in front of the car, waving his arms, and as Mr. Harms brought his machine to a stop this Mexican cried: "Two men have been killed here; tell the Sheriff." Mr. Harms according hurried to Dixon, delivered the message to the officials and returned to assist them remove the wounded man to the Dixon nospital. The dead man's body was or-

Shot From Behind.

He said he and the dead man had been to one of the negro shacks on the hill southeast of the scene of the shooting and were on their way home when they heard Mexican Pete yelling to them from behind, and almost immediately he opened fire on them. The nature of Reyo's wounds gives corobor ation to this part of his story for both bullets entered his body from the rear. One bullet struck him in the left hip while the other struck in the rear of the calf of the left leg and passed through the leg. The bullet was found loose inside his stocking when the sur geon dressed the wound

WOMAN'S CLUB MEETING-

The program at the Woman's club meeting Saturday afternoon in Miller hall opened with a vocal duet by Lois Lord and Mabel Pearse, entitled "Sing Me to Sleep." They sang very sweet ly. Mrs. Reedy furnished their plane accompaniment.

Three beautiful poems were read by nature, each suggestive of nature, the flowers, and birds. Two were by Eugene Field, "The Oak Tree and Ivy" and "The Robin and the Violet." The DINED IN OREGONother was "The Marriage of the Flowers," by Byers.

Two vocal numbers by Mrs. C. C. Johnson followed. These were much appreciated

Mrs. McWethy reviewed "The Kentucky Cardinal," in delightful fashion. The story is beautifully written, an example of pure English, and several passages were read from the story to illustrate its charm of language. The scene of the story is laid near Lexington, Ky, the time ,1850, and in part the story is founded on facts. The author, James A. Allen, is still living-a man of seventy.

The club voted to hold a scramble supper after the annual meeting which will be held in two weeks.

The Medical Practice Act of the State of Illinois under which institution the Osteopaths must be examined to be granted a license to practice, has been so executed that the Osteopath practicing here cannot enjoy all the privileges of a physician as he rightly should. After taking a thorough course in therapeutics, including surgery and obstetrics, he is disqualified by this Act from using these two very essential features in his practice. This is not right, and far from being just.

And for this particular reason a Bill has been introduced in the House-No. 535, and the Senate-No. 360. This Bill is now in the hands of the Committee on License and Miscellany in the Senate, and the Judiciary Committee in the House.

TYPHOID, THE FILTH DISEASE.

"Typhoid fever is a preventable disease. For every death from typhoid some one ought to be held criminally responsible." This statement, made by former Surgeon General George M. Sternberg of the United States army, is one of the slogans used in Health Promotion week in Illinois.

For some reason, which is difficult to explain, a great many people are exceedingly reluctant to admit the existence of tuberculosis or insanity in their family history, and yet, so far as the individual is concerned, these diseases are eminently respectable. On the other hand, there seems to be no definite sense of shame in regard to typhoid fever, which is recognized by scientists and physicians the world over as a filth disease-filth taken into one's system, or that has been permitted to work its way in.

Typhoid fever can not exist unless some one has been careless or unless in some way the material from the intestines of a typhoid patient or a typhoid carrier gains access to the digestive tract of an individual. As a rule, infection is carried by polluted water or by contaminated food, and in the spread of this contamination the ever-filthy housefly is an important factor. Any way that you look at it, typhoid fever is a nauseous and disgusting disease.

Typhoid fever has decreased materhas entirely disappeared

Typhoid fever may be acquired either by drinking polluted water, by drinking milk from cans which have been clean vegetables or other articles of food that have been washed in it.

During the Spanish-American war, was found that, in spite of the complete the housefly, which came to the kitchens and unscreened latrines.

Former Government Inspector is Held for Big Bond Theft

By Associated Press Leased Wire Chicago, May 19 .- With the arrest of Thomas Westover, formerly an inspector at a government explosive plant in West Virginia, federal agents today hoped to solve the mystery of the theft ast January of \$250,000 in liberty bonds from the Studebaker corporation of South Bend, Ind.

Julius Robertson, a secret service operative, claims to have heard Westover and two other men discussing the theft of the bonds while on a train enroute from South Bend to Chicago a few days ago. He lost all trace of the men after they left the train here until Saturday night when he found Westover in a lowntown hotel.

According to Robertson, one of the men said that the proposition of returnnig the bonds had been "put up to" E. R. Erskine, president of the Studebaker orporation and that he declined to pay reward for their return.

Westover will be held, pending word rom the corporation.

THREE ESSENTIALS IN GOOD CITIZENSHIP

(Continued from page 1.)

ture wisdom, like old wine, has a peculiar quality. We know just a few things at seventy, but we know what we

"Forty-three years ago the speaker occupied the same relation to a high school in a western city which the coming graduates of this high school in this city bear. I want to retrospect this evening and give some experiences.

Would Prize Health. "If I were a graduate again I would give twenty minutes every day to special physical exercises. Health is life's first prize. A man is a blend of animal and angel. The proportions may vary

but the problem is not to avoid but to

improve the quality of each. If I were a graduate again I would strive to start to be an original thinker. The only difference between the stupid man and the man who is original is the vital fact that the latter man thinks and the other does not. Do not take things for granted; take them for what they're worth. Be original-you can if you will try.

"If I were a graduate again I would steer my life by some fundamental convictions. The great convictions of the race are expressed in such words as 'Cod,' 'Truth,' 'Right,' 'Love,' 'Law, 'Immortality.' A man without convictions is as worthless as a door hanging by its lower hinge. The world will step aside and let a man pass who knows where he's going.

Courage An Asset. "If I were a graduate again I would identify myself with some great unpopular movement. Courage is the first of character. If you think you are right, have your say. First they'll swear at you; then they'll swear by you. This is the best day in the history of the world and the United States is the best place for an ambitious young man or woman. The Anglo-Saxons will rule the world. You can succeed here if you can succeed anywhere.

"If I were a graduate again I would crowd at least one kind act into every twenty-four hours

"So many faiths, so many ereeds, So many paths that wind and wind. While just the art of being kind Is all this old world needs.

"If I were to graduate again I would spend a little more time every day in the realm of the beautiful. We all need it,-a beautiful poem, a sweet song, a lovely picture a rare literary gemthe touch of the beautiful many times

Perhaps this may seem idealistic to the class. I will emphasize a few practical points. That the glory and perpetuity of the nation depends upon the integrity and intelligence and faithful with citizenship are character, education and occupation."

After citing these three points as elemental he wished the young people on the part of the imposing audience the largest measure of moral, mental and material success.

DRINK MORE WATER IF KIDNEYS BOTHER

Eat less meat and take Salts for Backache or Bladder trouble-Neutralizes acids.

Uric acid in meat excites the kidneys they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irri-tated, and you may be obliged to seek re-lief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made

from the acid of grapes and lemon juice,

combined with lithia, and has been used

for generations to clean clogged kidneys

and stimulate them to normal activity,

also to neutralize the acids in urine, so it no longer is a source of irritation.

thus ending bladder weakness. Jad Salts is inexpensive, cannot in-jure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lets of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

DARKEN GRAY HAIR

Sulphur and Nobody Will know.

Don't stay gray! Look young! Either prepare the recipe at home or tifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite.

Learn to Talk.
All very well, to quote the old saying about speech being silvern, but silence golden. Le arn to talk, if you want to get on in the world. There are some folk who talk foo much, it's true, but they are better than those who are mute and wrapped up in themselves. A wall of neserve isn't at all a pleasant thing to come up against.

The Standard Oil Company and Its Competitors

THE Standard Oil Company (Indiana) in conducting its business, is animated by the homely philosophy of the golden rule.

By dealing in fairness to all, competitor and consumer alike, the company is confident that the superior service it renders, and the merit of the products it manufactures, will secure for the company its fair share of the business.

The Standard Oil Company (Indiana) is in active competition with 264 other companies, large and small, who are selling oil, gasoline, and other petroleum products, in the territory it serves. Most of them are prosperous.

The Standard Oil Company (Indiana) is essentially a service organization in a highly specialized branch of industry, doing a big job as efficiently as it knows how-and it is not owned by one or two rich men, but by 4623 stockholders, not one holding as much as 10 percent of the total stock.

It is the ambition of the Board of Directors that when their trusteeship has expired, that they may report to the stockholders a creditable result that shall have been achieved solely by quality of products, by superior service to the public, and by dealing in fairness to all, competitor, consumer and employe.

HIGHER PRICE OF HOGS GIVES CORN ANOTHER INCLINE

Ry Associated Press Leased Wire Chicago, May 19.-Renewed strength in the corn market developed today owcountry offerings to arrive were small. ple 1.73. Buying, however, was not aggressive. Opening prices, which ranged from 3/3 white 67. to 21%c higher with July 1.59 1/2 to 1.61 and Sept. 1.54% to 1.55% were followed by moderate further gains.

Oats handened with corn. Expert in quiry continued. After opening unchanged to %c higher, including July at 65% to 66%c the market scored a further upturn.

Provisions were lifted by the advance of hogs and corn. Lard led the ascent. Bearish speculators made selling drives whenever support dwindled, but setbacks in prices were not of a radical to 2%c net higher with July 1.61% to 1.611 and Sept. 1.55% to 1.55%.
